

QM-GPOLCAN: Professional grade gloss WR coated polyester/cotton canvas

Ideal for high-end photo and fine art reproduction. This glossy canvas will deliver the highest dmax levels and widest range color gamut when used with photo black inks. It does not require varnishing which increases production time.

Benefits:

- 35% Cotton and 65% Polyester for Anti-sag and Strength for Machine Wrapping
- Smooth, Consistent Weave
- High Color Gamut with True Skin Tones

Applications:

- Museum and Gallery
- Home Decor
- Photographic Reproduction
- Gallery Stretching

Registered Latex Developer

| GLOSS MEASUREMENT | 15 +/- 10% by angle of 60° | | |

This media is designed for digital printing applications using OEM printers with their accompanying OEM ink sets. Although designed for all printers using the aforementioned OEM matching ink sets; actual results may vary depending on printer model, age, print design, environmental conditions, and other factors. Exposure of a print to atmospheric pollutants, or to temperature, humidity, and / or lighting extremes can result in fading, color shifting, or other visual changes. The ideal conditions for printing and storage are a temperature of 70°F ±5°F and relative humidity of 50% RH ±3% RH. Our wide format media is guaranteed against manufacturing flaws and defects and is designed to resist printer jams when used properly.
