CONDITIONS OF SALE

We have attempted to provide an error-free book. We reserve the right to correct prices in the event of an error. All prices are subject to change without notice. Taxes are not included in pricing. Minimum order fee for orders under \$200 is \$40. All mill orders and custom makes will be invoiced upon arrival to West World Paper's floor.

- › Net 30 on approved credit. Unpaid balances that are not paid by the end of the month following invoice date, will be subject to a finance charge of 1.5% per month (18% per annum, compounded monthly).
- › Accepted credit cards: Visa, MasterCard, American Express (American Express payments will hold a 4% upcharge of order total)
- › NSF cheques will carry a \$25 service charge.

CUTTING FEES

Text = \$5 per thousand cut sheets / per item

Cover = \$8 per thousand cut sheets / per item

Minimum fee is \$15 per item. For cutting requests larger than 1,000lbs please inquire with customer service.

CLAIMS

All claims for errors or corrections must be made within seven days from receipt of goods. There will be no allowance made if goods have been cut, printed, or otherwise made less saleable. On the discovery of paper with visual defects or a problem in the production, the job should be immediately stopped and you should contact your sales representative.

WEST WORLD PAPER
1680 Broadway Street, Suite 101
Port Coquitlam, BC V3C 2M8

RETURNS

A restocking fee of 15% of the value of goods returned or a minimum of \$40 will be charged. If the product has to be returned to the supplier, the supplier's restocking charge and any freight charges will be applied in addition to West World Paper's restocking fee.

Mill orders will not be accepted for credit. Any item cut from a full sized sheet cannot be returned for credit. All returns must be cleared by our office before pickup will be made. Product must be in the original packaging and must be in a saleable condition. All of the returns must be made within 30 days after invoice date.

Synaps Digital XM is a polyester based synthetic paper engineered for high heat, dry toner digital printing. Toner fuses with the synthetic paper to make the finished product both durable and naturally resistant to water, chemicals and grease. The polyester based material has incredible tear strength, and can hold up in any environmental condition.

Digital Productivity

- Designed to perform on all dry toner based platforms
- On demand, high quality printing
- Minimal scrap, waste and time compared to lamination

Ultimate Durability

- Toner fusing creates a naturally resistant surface to water, chemicals and grease
- Polyester base provides incredible tear strength and dimensional stability
- Eliminates frayed edges and de-lamination issues

What Else?

- Die cut, perforate, UV varnish, pre-print, and scoring.

Use Synaps Digital XM for applications like:

- Menus
- Instruction Manuals
- Catalogues
- ID Cards
- Plant stakes
