

NAVIGATOR™

PLATINUM DIGITAL

Made using the most modern papermaking technology and under strict quality monitoring and control systems from pulp production to paper converting, **Navigator Platinum Digital** ensures the **highest printing quality and performance in all digital applications.**

Specially engineered to deliver high quality printing results, **Navigator Platinum Digital** combines extra brightness with a unique thickness, **empowering your every output.**

Navigator Platinum Digital offers **incredible results** and superior quality consistency every time.

Advanced color printing paper

HIGH QUALITY FIBER - By using the best quality fiber - *Eucalyptus globulus* - Navigator guarantees optimum paper characteristics for digital printing. It's smoother, more opaque and has an excellent thickness / stiffness ratio, which allows for jam-free printing and a better printing quality, even in duplex applications using color.

ENVIRONMENT - Our commitment is to the highest environmental standards and continuous improvement in our forest management practices. Our responsible forest stewardship ensures the renewable supply of *Eucalyptus globulus* fiber and the preservation of biodiversity.
